CONTENTS

NUMBER 1

J. R. GALVELE	1	A stress corrosion cracking mechanism based on surface mobility
H. ATMANI and J. J. RAMEAU	35	Stress corrosion cracking at constant load of 304L stainless steel in molten $NaCl-CaCl_2$ at 570°C
T. N. RHYS-JONES, H. J. GRABKE and H. KUDIELKA	49	The effects of various amounts of alloyed cerium and cerium oxide on the high temperature oxidation of Fe–10Cr and Fe–20Cr alloys
A. FRIGNANI, M. TASSINARI, C. MONTICELLI and G. TRABANELLI	75	Inhibition mechanism of S-containing additives towards intergranular corrosion of a sensitized stainless steel
Y. XU, G. E. THOMPSON, G. C. WOOD and B. BETHUNE	83	Anion incorporation and migration during barrier film formation on aluminium
Short Communications		
R. A. COTTIS and D. HOLT	103	A semi-automatic device for the rapid measurement of pit-depths and positions
M. KEDDAM, H. TAKENOUTI and N. YU	107	New data on the kinetics of passive nickel from very low frequency impedance measurements
	111	Corrosion Diary

NUMBER 2

D. H. LISTER, R. D. DAVIDSON and E. MCALPINE	113	The mechanism and kinetics of corrosion product release from stainless steel in lithiated high temperature water
J. YU, R. N. PARKINS, Y. XU, G. THOMPSON and G. C. WOOD	141	Stress corrosion crack initiation in α-brass exposed to sodium nitrite solutions
J. YU and R. N. PARKINS	159	Stress corrosion crack propagation in α-brass and copper exposed to sodium nitrite solutions
P. S. SIDKY and M. G. HOCKING	183	The hot corrosion of nickel-based ternary alloys and superalloys for gas turbine applications—I. Corrosion in SO_2/O_2 atmospheres
M. G. HOCKING and P. S. SIDKY	205	The hot corrosion of nickel-based ternary alloys and superalloys for gas turbine applications—II. The mechanism of corrosion in SO_2/O_2 atmospheres
Book Review		
J. R. GALVELE	215	Basic Corrosion and Oxidation. By JOHN M. WEST
	217	Announcements
	219	Corrosion Diary

NUMBER 3

L. M. AL-SHAMA, J. M. SALEH and N. A. HIKMAT	221	Potentiostatic studies of the corrosion of grey cast iron in sulphuric acid and sodium hydroxide solutions
E. M. M. SUTTER, A. CORNET and J. PAGETTI	229	The inhibition of the corrosion of titanium in 10 N sulphuric acid by cupferron (*N*-nitrosophenyl hydroxylamine)
V. MITROVIC-SCEPANOVIC, B. MACDOUGALL and M. J. GRAHAM	239	The effect of Cl^- ions on the passivation of Fe–26Cr alloy
M. SAXENA, O. P. MODI, A. H. YEGNESWARAN and P. K. ROHATGI	249	Corrosion characteristics of cast aluminum alloy–3 wt% graphite particulate composites in different environments
T. A. MOZHI, W. A. T. CLARK and B. E. WILDE	257	The effect of nitrogen and carbon on the stress corrosion cracking performance of sensitized AISI 304 stainless steel in chloride and sulfate solutions at 250°C
I. SEKINE, S. HATAKEYAMA and Y. NAKAZAWA	275	Corrosion behaviour of Type 430 stainless steel in formic and acetic acids
S. M. SHARLAND	289	A review of the theoretical modelling of crevice and pitting corrosion
	325	Announcement
	327	Corrosion Diary

NUMBER 4

G. M. SCAMANS, N. J. H. HOLROYD and C. D. S. TUCK	329	The role of magnesium segregation in the intergranular stress corrosion cracking of aluminium alloys
R. K. DINNAPPA and S. M. MAYANNA	349	The dezincification of brass and its inhibition in acidic chloride and sulphate solutions
A. M. BECCARIA, E. D. MOR, G. POGGI and F. MAZZA	363	A study of the corrosion products of aluminum brass formed in sodium sulfate solution in the presence of chlorides
U. RAMMELT and G. REINHARD	373	The influence of surface roughness on the impedance data for iron electrodes in acid solutions
S. H. ALWASH, V. ASHWORTH, M. SHIRKHANZADEH and G. E. THOMPSON	383	A rotating disc electrode with heat transfer facilities for corrosion studies
J. K. HAWKINS, H. S. ISAACS, S. M. HEALD, J. TRANQUADA, G. E. THOMPSON and G. C. WOOD	391	An investigation of chromate inhibitors on aluminium using fluorescence detection of X-ray absorption
M. KOUNCHEVA, G. RAICHEVSKI and ST. VITKOVA	401	The behaviour of electrodeposited nickel–iron protective–decorative layers at anodic potentials
Book Review		
J. C. SCULLY	407	Encyclopedia of Materials Science and Engineering
	417	Announcement
	419	Corrosion Diary

NUMBER 5

N. SATO	421	Some concepts of corrosion fundamentals
O. EL KEDIM, C. LEMAITRE, P. FLUZIN and G. BERANGER	435	Improvement of resistance to thermal fatigue damage by emulsions containing corrosion inhibitors
A. ALAVI and R. A. COTTIS	443	The determination of pH, potential and chloride concentration in corroding crevices on 304 stainless steel and 7475 aluminium alloy
F. EL-TAIB HEAKAL, A. S. MOGODA, A. A. MAZHAR and M. S. EL-BASIOUNY	453	Kinetic studies on the dissolution of the anodic oxide film on titanium in phosphoric acid solutions
E. F. CUDDIHY	463	The aging correlation (RH + t): relative humidity (%) + temperature (°C)
I. SUZUKI and S. WADA	475	Zinc–zinc chloride composite electrodeposited steel sheet
K. ARAMAKI, M. HAGIWARA and H. NISHIHARA	487	The synergistic effect of anions and the ammonium cation on the inhibition of iron corrosion in acid solution
P. S. SIDKY and M. G. HOCKING	499	The hot corrosion of Ni-based ternary alloys and superalloys for application in gas turbines employing residual fuels
	531	Corrosion Diary

NUMBER 6

G. RIEDEL, C. VOIGT, H. WERNER, K.-P. ERKEL and M. GÜNZEL	533	The influence of acid soluble sulfide inclusions on the passivation behaviour of austenitic Cr–Ni stainless steels
V. MITROVIC-SCEPANOVIC and R. J. BRIGHAM	545	The localized corrosion of stainless steel in high purity sulphate solutions
V. JAGANNATHAN, T. A. MOZHI, W. A. T. CLARK and B. E. WILDE	555	The simulation of intergranular attack of AISI 304 stainless steels in H_2SO_4
R. N. SINGH, L. BAHADUR and P. SINGH	561	The corrosion and electrochemical behaviour of zinc in binary mixtures of dimethylformamide and water
C. KIRBY	567	Galvanic and crevice corrosion effects in Magnox A180 alloy
M. PUIGGALI, D. DESJARDINS and L. AJANA	585	A critical study of stress corrosion cracking testing methods for stainless steels in hot chloride media
P. I. WILLIAMS, R. G. FAULKNER, L. W. PINDER and D. J. LEES	595	The influence of alloy diffusion processes on the corrosion of ferritic and austenitic stainless steels
P. I. WILLIAMS, R. G. FAULKNER, L. W. PINDER and D. J. LEES	615	Short circuit diffusion-assisted corrosion
Short Communication		
G. L. BIANCHI and J. R. GALVELE	631	Embrittlement of copper by the surface mobility mechanism
	637	Corrosion Diary

NUMBER 7

T. E. GRAEDEL, K. NASSAU and J. P. FRANEY	639	Copper patinas formed in the atmosphere—I. Introduction
J. P. FRANEY and M. E. DAVIS	659	Metallographic studies of the copper patina formed in the atmosphere
K. NASSAU, P. K. GALLAGHER, A. E. MILLER and T. E. GRAEDEL	669	The characterization of patina components by X-ray diffraction and evolved gas analysis
R. L. OPILA	685	Copper patinas: an investigation by Auger electron spectroscopy
A. J. MULLER and C. MCCRORY-JOY	695	Chromatographic analysis of copper patinas formed in the atmosphere
K. NASSAU, A. E. MILLER and T. E. GRAEDEL	703	The reaction of simulated rain with copper, copper patina, and some copper compounds
T. E. GRAEDEL	721	Copper patinas formed in the atmosphere—II. A qualitative assessment of mechanisms
T. E. GRAEDEL	741	Copper patinas formed in the atmosphere—III. A semi-quantitative assessment of rates and constraints in the greater New York metropolitan area
D. T. HAWKINS	771	The restoration of metal monuments: a bibliography, 1933–1986
	783	Corrosion Diary

NUMBER 8

W. C. MOSHIER, G. D. DAVIS and J. S. AHEARN	785	The corrosion and passivity of aluminum exposed to dilute sodium sulfate solutions
R. E. HUMMEL, R. J. SMITH and E. D. VERINK JR	803	The passivation of nickel in aqueous solutions—I. The identification of insoluble corrosion products on nickel electrodes using optical and ESCA techniques
R. J. SMITH, R. E. HUMMEL and J. R. AMBROSE	815	The passivation of nickel in aqueous solutions—II. An *in situ* investigation of the passivation of nickel using optical and electrochemical techniques
R. C. NEWMAN and T. SHAHRABI	827	The effect of alloyed nitrogen or dissolved nitrate ions on the anodic behaviour of austenitic stainless steel in hydrochloric acid
J. C. LIN and H. C. SHIH	839	The dual character of an aluminium–thiourea mixture in an NaCl aqueous solution—an inhibitor and an accelerator of corrosion for low carbon steel
Z. SZKLARSKA-SMIALOWSKA, D. GRIMES and J. PARK	859	The kinetics of pit growth on Alloy 600 in chloride solutions at high temperatures
Short Communications		
M. STRATMANN	869	The investigation of the corrosion properties of metals, covered with adsorbed electrolyte layers—a new experimental technique
F. MANSFELD and S. TSAI	873	Corrosion kinetics in low conductivity media—II. Iron and nickel in ethanolic HCl
B. H. MALTMAN and M. J. ROBINSON	879	Ion exchange resin fibres for potential measurement in crevice corrosion studies
	885	Corrosion Diary

NUMBER 9

C. MANFREDI, I. A. MAIER and J. R. GALVELE	887	The susceptibility of Type AISI 304 stainless steel to transgranular and intergranular SSC in 40% $MgCl_2$ solution at 100°C
M. STRATMANN, K. BOHNENKAMP and T. RAMCHANDRAN	905	The influence of copper upon the atmospheric corrosion of iron
G. SALVAGO, G. FUMAGALLI, A. MOLLICA and G. VENTURA	927	A statistical evaluation of AISI 316 stainless steel resistance to crevice corrosion in 3.5% NaCl solution and in natural sea water after pre-treatment in HNO_3
G. HULTQUIST, M. SEO, T. LEITNER, C. LEYGRAF and N. SATO	937	The dissolution behaviour of iron, chromium, molybdenum and copper from pure metals and from ferritic stainless steels
K. DOBLHOFER and I. EISELT	947	The adhesion and inhibitor properties of organic coatings investigated with very thin polymer films on noble metal electrodes
A. MITSUHASHI, K. ASAMI, A. KAWASHIMA and K. HASHIMOTO	957	The corrosion behavior of amorphous nickel base alloys in a hot concentrated phosphoric acid
R. B. HAMZAH and M. J. ROBINSON	971	Hydrogen absorption resulting from the simulated pitting corrosion of carbon–manganese steels
H. YOSHIOKA, K. ASAMI, A. KAWASHIMA and K. HASHIMOTO	981	Laser-processed corrosion-resistant amorphous Ni–Cr–P–B surface alloys on a mild steel
Short Communications		
F. MANSFELD, S. LIN, K. KIM and H. SHIH	997	Pitting and surface modification of SiC/Al
M. POURBAIX	1001	On the surface treatment of annealed carbon steel
	1007	Corrosion Diary

NUMBER 10/11

H. MARGOT-MARETTE, G. BARDOU and J. C. CHARBONNIER	1009	The application of the slow strain rate test method for the development of linepipe steels resistant to sulphide stress cracking
E. M. RIECKE, B. JOHNEN and R. MOELLER	1027	The effect of phosphorus on hydrogen uptake by iron in acidic sulphate and sulphide solutions
H. I. MCHENRY, P. T. PURTSCHER and T. R. SHIVES	1041	Observations of hydrogen damage in a failed pressure vessel
M. BONIS and J.-L. CROLET	1059	Practical aspects of the influence of *in situ* pH on H_2S-induced cracking
G. SCHMITT, L. SOBBE and W. BRUCKHOFF	1071	Corrosion and hydrogen-induced cracking of pipeline steel in moist triethylene glycol diluted with liquid hydrogen sulfide
T. HYODO, M IINO, A. IKEDA, M. KIMURA and M. SHIMIZU	1077	The hydrogen permeation and hydrogen-induced cracking behaviour of linepipe in dynamic full scale tests
A. IKEDA, T. KANEKO and Y. ANDO	1099	On the evaluation method of sulfide stress cracking susceptibility of carbon and low alloy steels
Y. KOBAYASHI, K. UME, T. HYODO and T. TAIRA	1117	The resistance of welded linepipes to sulfide stress cracking
C. CHRISTENSEN and R. T. HILL	1137	The use of fracture mechanics in sulphide stress cracking testing
G. MONFORT, J. HALLEUX and A. BRAGARD	1145	The automation and instrumentation of testing H_2S for cracking
J. G. ERLINGS, H. W. DE GROOT and J. NAUTA	1153	The effect of slow plastic and elastic straining on sulphide stress cracking and hydrogen embrittlement of 3.5% Ni steel and API 5L X60 pipeline steel
L. COUDREUSE and J. CHARLES	1169	The use of a permeation technique to predict critical concentration of H_2 for cracking
H. PIRCHER and G. SUSSEK	1183	Testing the resistance of welds in low-alloy steels to hydrogen-induced stress corrosion cracking
C. J. THOMAS, R. G. J. EDYVEAN, R. BROOK and I. M. AUSTEN	1197	The effects of microbially produced hydrogen sulphide on the corrosion fatigue of offshore structural steels
G. SALVAGO, G. FUMAGALLI, A. CIGADA and P. SCOLARI	1205	Sulphide stress corrosion behaviour of a nickel coated high-strength low-alloyed steel
A. CIGADA, T. PASTORE, P. PEDEFERRI and B. VICENTINI	1213	The sulfide stress corrosion cracking of high alloy stainless steels for oil and natural gas wells
F. MANCIA	1225	The effect of environmental modification on the sulphide stress corrosion cracking resistance of 13Cr martensitic stainless steel in $H_2S-CO_2-Cl^-$ systems

M. BARTERI, F. MANCIA, A. TAMBA and G. MONTAGNA 1239 Engineering diagrams and sulphide stress corrosion cracking of duplex stainless steels in deep sour well environment

R. OLTRA, A. DESESTRÊT, E. MIRABAL and J. P. BIZOUARD 1251 The stress corrosion cracking of duplex stainless steels in environments containing chlorides and H_2S. Study of the ferrite phase behaviour

K. VAN GELDER, J. G. ERLINGS, J. W. M. DAMEN and A. VISSER 1271 The stress corrosion cracking of duplex stainless steel in $H_2S/CO_2/Cl^-$ environments

1281 Corrosion Diary

NUMBER 12

1283 The T. P. Hoar Prize for 1986

C. DAS and G. VENKATESWARAN 1287 On the formation of protective sulphide coatings on carbon steel surfaces

S. H. ALWASH, V. ASHWORTH, M. SHIRKHANZADEH and G. E. THOMPSON 1301 An investigation of the reduction of oxygen at a rotating disc electrode with heat transfer facilities

F. BELLUCCI, L. NICODEMO and B. LICCIARDI 1313 Iron dissolution in acid water–methanol mixtures

A. TURNBULL and D. H. FERRISS 1323 Mathematical modelling of the electrochemistry in corrosion fatigue cracks in steel corroding in marine environments

J. P. DE SOUZA, O. R. MATTOS, L. SATHLER and H. TAKENOUTI 1351 Impedance measurements of corroding mild steel in an automotive fuel ethanol with and without inhibitor in a two and three electrode cell

Short Communication

J. P. SIMPSON and R. SCHENK 1365 Hydrogen evolution from corrosion of pure copper

Book Review

J. SCULLY 1371 Corrosion of Ductile Iron. By P. J. De Rosa and R. W. Parkinson

1375 Corrosion Diary
